Hemang H. Shah, M.D., FAASAM  
Kevin L. Smith, M.D., F.A.C.S.  
Hon. Barclay C. Winn

Physicians for Peace is most appreciative to you and Hampton Roads Moving & Storage for the recent donation to Physicians for Peace of moving services.

Physicians for Peace has developed a number of sustainable programs, each in response to a particular need voiced by the nations we visit. Each of these core programs follows specific methodologies, and can be replicated in other nations facing similar healthcare needs. Focusing on long-term, sustainable, replicable medical education and training, we send teams of volunteers — including physicians, dentists, nurses, physical therapists, physician assistants and other healthcare professionals — to places where their teaching and healing skills are needed most. Since its inception, Physicians for Peace has made hundreds of trips to Africa, Asia, the Caribbean, Central America, Eastern Europe, the Middle East and beyond, changing the lives of countless thousands of people along the way.

Looking forward to the second half of 2010, we are currently planning missions to: Nicaragua, Philippines, Malawi, El Salvador, West Bank, India and Bolivia.

The programs, missions and volunteers of Physicians for Peace transform the lives of countless thousands of patients in some of the neediest regions of the world. But we can only carry out this work with your support. Your gifts of time, materials and funding are what allow us to continue providing critical care and education in the developing world. We thank you for that support.

Sincerely,

Monika Bridgforth  
Senior Director, Development & Communications

### HONORARY TRUSTEES
